

Innovative Technology and Electronic Components: Your Partner in Value Creation SANSHIN Group

SANSHIN Electric Co., Ltd.

Corporate Philosophy

We aim to be virtuous merchants loved by and loving our customers, contributing to the advancement of global culture and civilization.

● Management Vision

**Enhancing Customer Satisfaction
Profitable Growth and Development**

● Message from CEO

We are a technical trading company that integrates both trading and manufacturing functions, dealing with a wide range of electronic components from various manufacturers. We provide optimal technical seeds tailored to customer needs, offering diverse proposals to support the success of their business.

With our corporate philosophy of being a "merchant with virtue," we celebrate 60 years since our founding. We remain committed to delivering unwavering value while continuously seeking growth and development. We sincerely appreciate your continued support.

President & CEO: Hiro ISHII

Our Business

Our combination of nine business segments enables us to deliver effective solutions to customer challenges.

Our Business

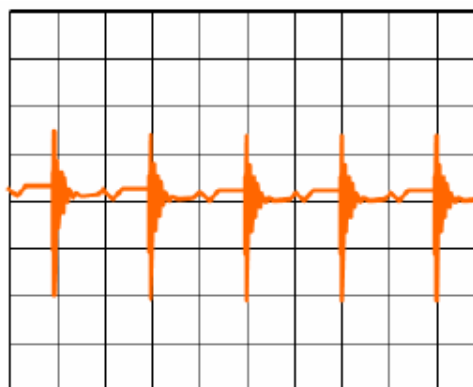

Sanshin Group creates value at every stage of the customer value chain by leveraging our diverse capabilities and services.

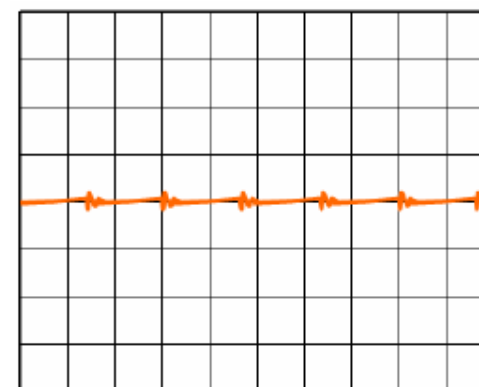

Spherical Transformer Technology

Radiation noise of conventional transformer

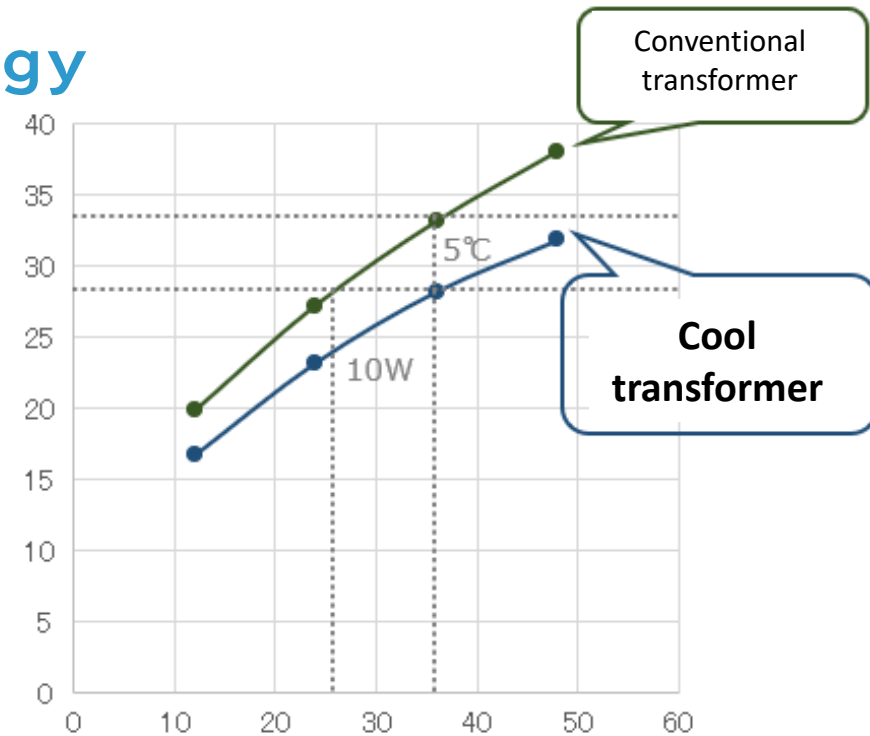

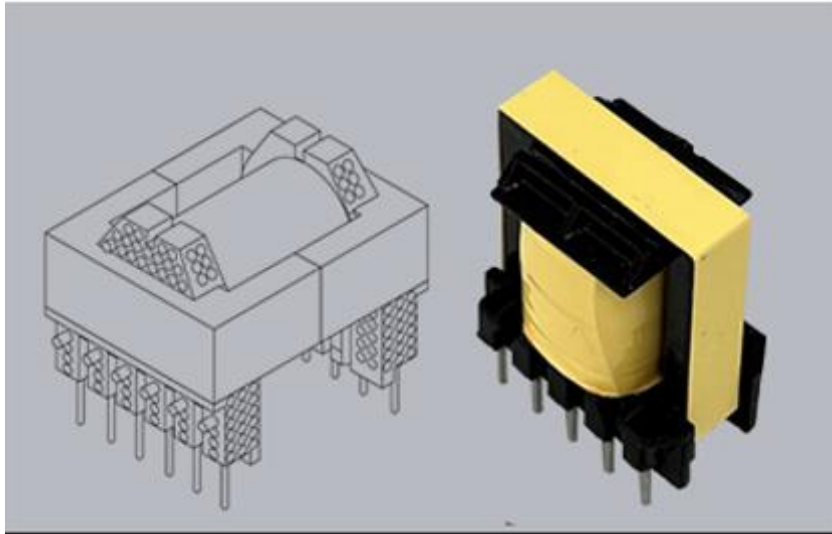

Radiation noise from spherical transformer

Our unique spherical transformers feature an ideal magnetic flux loop, preventing stagnation and ensuring optimal performance. This innovation reduces noise without additional components, lowers costs, and improves power efficiency.

Cool Transformer Technology

✓ Our newly developed Cool Transformer achieves a temperature reduction of more than 5°C compared to conventional transformers!

✓ Switching power supplies are used in a wide range of electronic equipment. As electrification continues to advance, our Cool Transformer helps enable smaller designs at the same power level or higher power output within the same footprint.
